Experience

Gomla Market | Alexandria

Web Developer | 03/2022 - Present

- Led the development of web applications showcasing comprehensive skills in Laravel, Vue 3, and various web technologies:
 - **Dynamic Multilingual Website for Artisan Olive and Olive Oil Producer:** Took charge of developing a versatile content management system (CMS) tailored to the needs of a small-scale olive oil producer. This initiative empowered the client to effortlessly manage a bilingual website, accommodating both English and Arabic audiences. The system was meticulously designed to handle a vast catalog of olive and olive oil products, seamlessly incorporating detailed information, images, and diverse product variations. By providing a dynamic platform, we facilitated smooth maintenance and scalability, allowing the client to expand their online presence with ease, and overcoming any technical limitations.
 - **Menu & Order App:** Orchestrated the development of a feature-rich application facilitating menu exploration, streamlined order placement, and secure payment processing via QR code integration at cash registers.
 - **Café Table Management App:** Engineered a real-time table management system enhancing customer service by optimizing table turnover and café operational efficiency. By leveraging cutting-edge technologies, we significantly reduced customer wait times, delivering an unparalleled dining experience.
 - **Retail Management Application for Multi-Database Environment:** Orchestrated the development of a comprehensive web application for a retail company, seamlessly integrating with two databases. This multifaceted solution encompassed features for job application submissions, news updates, and product showcases, providing a centralized platform for diverse functionalities. Leveraging Laravel and Vue 3, we ensured optimal performance and scalability to meet the dynamic needs of the retail environment. Additionally, implemented multilanguage support to cater to a broader audience and enhance user accessibility.
- Demonstrated strong ability to work independently and manage multiple projects simultaneously.
- Gained valuable experience collaborating with senior developers, learning best practices, and continuously improving coding skills.

Freelance/Self Employed | Alexandria

Android Developer | 05/2019 - 03/2022

- Developed many Android applications independently, utilizing various libraries including Room, Hilt/Dagger, Volley, Retrofit, and Firebase for features like authentication, data persistence, networking, and push notifications.
- Successfully launched apps on the Google Play Store.
- Collaborated with clients to understand their requirements and deliver solutions that exceeded their expectations.
