## Professional Summary

Results-oriented Full-Stack Web Developer with expertise in PHP, Laravel, and Vue 3, delivering innovative and high-performance multilingual web applications. Strong foundation in Android development with a mobile-first approach to web solutions. Proven ability to lead projects, collaborate with teams, and meet complex client requirements. Fluent in English and Arabic, currently expanding expertise in React and Golang.

## Experience

### Storexweb | Alexandria

Full-Stack Web Developer | 05/2024 – Present

- Developed scalable web applications using PHP, Laravel, and Vue 3 to meet client-specific needs.
- Began incorporating React into projects to enhance dynamic UI development and frontend scalability.
- Introduced Golang for backend services, improving system performance and reliability.
- Worked closely with agile teams to deliver projects on time while exceeding client expectations.

### Gomla Market | Alexandria

Web Developer | 03/2022 – 05/2024

- Delivered high-performance web applications, leveraging Laravel, Vue 3, and modern web technologies.
- Developed a bilingual CMS for an olive oil producer, supporting dynamic product catalogs and seamless multilingual support.
- Built a menu and order app with QR integration, streamlining order placement and payment processes.
- Engineered a real-time café table management app, enhancing operational efficiency and customer experience.
- Designed a retail management app supporting multi-database integration for job applications, news updates, and product showcases.

### Freelance/Self-Employed | Alexandria

Android Developer | 05/2019 – 03/2022

- Independently developed and launched Android applications, incorporating libraries like Room, Hilt/Dagger, Volley, and Retrofit.
- Delivered customized solutions to client requirements, resulting in high customer satisfaction and repeated engagements.
- Published multiple applications on Google Play Store, demonstrating expertise in mobile application development.
